

International Tenants Day & European Responsible Housing Initiative

Tenants' empowerment and Responsible Housing

Energy efficiency, social innovation, citizens' empowerment, social inclusion and participation... What does this really mean in practice? How to achieve these goals in the housing sector? How can we empower tenants and inhabitants? How can Corporate Social Responsibility (CSR) help housing organisations address these issues in cooperation with tenants and their stakeholders and further develop 'Responsible Housing' in Europe?

On the occasion of International Tenants Day, social landlords and tenants representatives will discuss solutions to new societal challenges with EU and national stakeholders. Concrete 'Responsible Housing' achievements in the EU will be showcased and celebrated, with the announcement and presentation of the good practices selected by the European Responsible Housing Awards Jury.

To conclude the day, we cordially invite you for a networking cocktail.
